## EVO FOUR™

"The detail is really phenomenal"

AVIDHIFI's EVO FOUR Loudspeakers deliver a vast soundstage, and a level of detail you would not think possible from their proportions. The ability of our loudspeakers to reproduce precise dynamics will have you hearing your cherished recordings for the first time all over again.

The Bass is optimised by reflex loading from below the cabinet to reduce room positioning issues and our TMT™ (Tuned Mass Technology) diverts harmful vibration away from the drive units and cabinet, leaving you with a musical purity that is both riveting and captivating.
