

PULSUS II™ PHONO STAGE

AVID PULSUS II

MUSICAL REVELATION

The Pulsus II delivers a substantial advance in performance, offering greater resolution, dynamics, and control than its acclaimed predecessor. Every enhancement is focused on revealing more of the music, presenting recordings with increased clarity, precision, and authority for a more engaging listening experience.

Upgraded circuitry and carefully selected components lower noise and distortion, uncovering finer detail, improved transparency, and more natural tonal balance. Enhanced timing and musical coherence allow performances to flow with greater realism and impact.

Its redesigned casework aligns Pulsus II with our turntable range, reflecting the same commitment to precision engineering and craftsmanship. Beautifully built and finished, it combines exceptional sonic performance with refined, timeless aesthetic.

SPECIFICATIONS	
NOISE	< -81dB MM < -67dB MC
DISTORTION	< 0.001%
RIAA	5Hz - 70kHz +/- 0.5dB
GAIN	48dB - 60dB - 70dB
RESISTANCE	100R-300R-500R-1K-5K-10K 47k - CUSTOM
CAPACITANCE	100pf-200pf-500pf
POWER SUPPLY	REGULATED WITH 35VA TRANSFORMER
VOLTAGE INPUT	100-240 VAC 50/60Hz 10 WATTS MAX (DEPENDENT ON REGION)
DIMENSIONS	PHONO: 160 x 239 x 70mm (WxDxH) PSU: 160 x 247 x 70mm (WxDxH)
NET WEIGHT	PHONO: 1.3Kg (2.9Lb) PSU: 1.9Kg (4.2Lb)
